Summary

Full Stack Developer with 2+ years of expertise building scalable web and mobile applications with React.js, Next.js, Node.js, and React Native. Created REST APIs, integrated AI services, and enhanced performance by up to **40%**.

Technical Skills

Programming Languages: JavaScript, Java, Python, C, C++, SQL

Frontend: React.js, Next.js, React Native, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO, Gemini API, Edge TTS, gTTS

Databases: MongoDB, MySQL, SQL Server, Supabase, Firebase

Cloud and Deployment: AWS, Google Cloud Platform (GCP), Vercel, Render, Netlify, Railway, Cloudinary

Tools and Concepts: Git, GitHub, Postman, Thunder Client, Figma, Android Studio, VS Code, Data Structures, OOP, DBMS, Operating Systems, Computer Networks

Education

Vivekanand Education Society's Institute of Technology, Mumbai

Aug 2024 – May 2027

B.E in Computer Engineering

CGPA: 9.1 / 10

Vivekanand Education Society's Polytechnic, Mumbai

Aug 2021 – June 2024

Diploma in Computer Engineering

Percentage: 84.97%

Experience

Web Developer

June 2024 – Present

Odyssey

Mumbai, India

- Built a vacation home listing platform with React.js, Tailwind CSS, Node.js, and MongoDB, delivering fast and responsive experience.
- Reduced page load time by **40%** through code splitting, compression, and boosted rendering strategies.
- Developed RESTful endpoints supporting dynamic content delivery and real-time data synchronization.
- Elevated search visibility using semantic structuring, metadata optimization, and efficient image handling.

Full Stack Developer

June 2024 – September 2025

AIBI

Mumbai, India

- Led development of scalable web and mobile applications using React.js, React Native, Node.js, and Supabase, following structured SDLC workflows and industry best practices.
- Handled **1,000+** structured records through robust API endpoints, significantly reducing manual overhead and operational workload by **30%**.
- Secured application access using JWT-based authentication and role-based authorization (RBAC) mechanisms across all modules.
- Added AI-driven capabilities by integrating Gemini API and advanced text-to-speech services for improved functionality.
- Optimized backend efficiency and database query execution, raising overall system responsiveness and scalability by **35%**.

Mobile Application Developer

December 2023 – May 2024

Sinjan Solutions Pvt. Ltd.

Mumbai, India

- Built QR attendance application with React Native and Firebase tracking real-time attendance for **100+** users.
- Reduced verification work by **40%** through process automation and streamlined validation.
- Delivered stable application by fixing auth flows and optimizing API interactions.
- Tested thoroughly to identify and fix bugs, ensuring smooth experience.

Web Developer

June 2023 – July 2023

Infosys Technologies

India

- Crafted frontend pages for e-commerce site with HTML, CSS, JavaScript, PHP, and MySQL.
- Elevated page speed by **30%** using AJAX updates for seamless content loading.
- Enhanced database performance through indexing and query optimization.
- Worked with team on bug fixes and feature testing before launch.

Projects

AI Multiverse – AI Storytelling Platform | React.js, Tailwind CSS, Node.js, Gemini API, Edge TTS, Cloudinary, Supabase

- Developed a collaborative AI storytelling platform with multi-user input, character selection, and real-time voice-based narrative generation for **5+** concurrent users.
- Combined Gemini API with Edge TTS for sub-3-second story generation and handled **20+** asynchronous endpoints with optimized frontend responsiveness.
- Configured efficient state management and media handling through Cloudinary and Supabase, ensuring rapid UI response and scalable content delivery.

Crickify – Real-Time Hand Cricket Game | React.js, Tailwind CSS, Node.js, Express.js, Socket.IO, Framer Motion

- Created a real-time Hand Cricket experience with single-player and multiplayer modes, achieving under **50ms** latency and smooth synchronization.
- Implemented a WebSocket-based room system with unique match codes and structured turn-based logic ensuring consistent game state across sessions.

StrideX – Full Stack E-Commerce Solution | React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT

- Released a full-stack e-commerce solution with product catalog, cart management, and secure checkout, handling **10+** categories with smooth user experience.
- Set up RESTful endpoints for authentication and order processing, using MongoDB for dynamic data handling and JWT-based route protection.

TermiTalk – LAN Chat Architecture | Python, Socket Programming, Multi-threading, Tkinter, Queues

- Made a secure LAN chat infrastructure enabling real-time messaging and file sharing without internet, handling **10+** concurrent users with admin controls.
- Applied a multi-threaded socket design with private rooms, IP-based communication, and reliable file transfer with confirmation under **20ms** latency.

Speaking and Community

4-Day Workshop on React.js and Next.js | VES Polytechnic, Mumbai

- Conducted a hands-on workshop on modern frontend development and scalable web architecture for **60+** students.
- Walked participants through live project implementation covering React fundamentals, routing, state management, and deployment.

Publication

QR Attend – Android-Based Attendance Management System | IJRPR

- Authored a peer-reviewed research paper on a QR-code-based automatic attendance system with real-time backend validation and Firebase integration.
- Planned and executed a real-time QR authentication workflow for automatic attendance tracking, reducing manual effort by **40%**.

Achievements and Certifications

INVICTUS '25 | Finalist

- Reached the finalist position at INVICTUS '25, a competitive intra-college technical fest at VESIT, Mumbai, among multiple participating teams.

Data Structures and Algorithms | LeetCode & GeeksforGeeks

- Solved **250+** Data Structures and Algorithms problems on LeetCode and GeeksforGeeks, enhancing problem-solving skills and algorithmic thinking.
