Summary

Full Stack Developer building web and mobile applications with **React.js**, **Next.js**, **React Native**, and **Node.js**, working across both **SQL** and **NoSQL** databases. Actively exploring **AI/ML** and sharpening problem-solving through DSA.

Technical Skills

Programming Languages: JavaScript, Java, Python, C, C++, SQL

Frontend: React.js, Next.js, React Native, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Gemini API, Edge TTS, gTTS

Databases: MongoDB, MySQL, SQL Server, Supabase, Firebase

Cloud and Deployment: AWS, Vercel, Render, Netlify, Railway, Cloudinary

Tools and Concepts: Git, GitHub, Postman, Thunder Client, Figma, Android Studio, VS Code

Education

Vivekanand Education Society's Institute of Technology, Mumbai

Aug 2024 – May 2027

B.E in Computer Engineering

CGPA: 9.16 / 10

Vivekanand Education Society's Polytechnic, Mumbai

Aug 2021 – June 2024

Diploma in Computer Engineering

Percentage: 84.97%

Experience

Web Developer

March 2026 – Present

Odyssey Homes

Mumbai, India

- Designed and built a luxury real estate portal with **50+** listings, achieving a **95%** mobile responsiveness score.
- Constructed **3** core modules — property listing, enquiry handling, and dynamic content — using React.js, Node.js, and MongoDB.
- Designed and built RESTful API endpoints that power a clean, intuitive UI for property browsing and enquiry submission.
- Improved page load speed by **40%** through code splitting, asset compression, and efficient rendering strategies.

Full Stack Developer

July 2024 – September 2025

AIBI

Mumbai, India

- Led multiple web and mobile solutions using React.js, React Native, Node.js, and Supabase, adhering to structured Software Development Life Cycle (SDLC) workflows.
- Managed **1,000+** structured records through reliable APIs, significantly cutting manual overhead and operational workload by **30%**.
- Secured application access for end users using **2** layers of protection: JWT-based verification and role-based authorization.
- Integrated **2** AI services, Gemini API and advanced text-to-speech, to power the app's intelligent features.
- Streamlined backend and query execution, raising system responsiveness by **35%**.

Mobile Application Developer

December 2023 – May 2024

Sinjan Solutions Pvt. Ltd.

Mumbai, India

- Developed a QR attendance tracker with React Native and Firebase monitoring live attendance for **100+** users.
- Reduced verification effort by **40%** through process automation and streamlined validation.
- Resolved **3+** critical auth bugs and refined API interactions, improving overall stability significantly.
- Conducted thorough testing across modules to identify and eliminate bugs, ensuring a smooth user experience.

Web Developer

June 2023 – July 2023

Insys Technologies

India

- Built responsive, cross-device-compatible web apps using **5** key technologies — HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented AJAX-based interactions and optimized frontend workflows, enabling instant content updates without full-page reloads.
- Optimized database queries through structuring and indexing, cutting execution time by **45%** during testing.

Projects

HireSense – AI Career Assistant | *React.js, Tailwind CSS, Node.js, MongoDB, Gemini API, NLP, LLMs, Speech Recognition*

- Engineered an AI-powered job-readiness platform offering **5** core modules — resume analysis, interview preparation, profile generation, career guidance, and ATS scoring.
- Created an ATS resume analyzer that evaluated uploaded CVs and generated **10+** data points of actionable feedback, improving average ATS match scores by **30%**.
- Developed an intelligent assistant using Gemini API, facilitating profile summarization and context-aware conversational support.
- Crafted a mock interview module with speech recognition and timer-based responses, delivering AI-driven feedback across **3** dimensions — communication, clarity, and confidence.

Crickify – Multiplayer Cricket Game | *React.js, Tailwind CSS, Node.js, Express.js, Socket.IO, Framer Motion*

- Engineered a real-time Hand Cricket arena with single-player and multiplayer modes, delivering synchronized gameplay with under **50ms** latency.
- Built a Socket.IO-powered room framework supporting **20+** concurrent matches with unique codes, turn-based logic, automatic reconnection management, and consistent state synchronization.

StrideX – E-Commerce Platform | *React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Razorpay*

- Delivered a full-stack e-commerce solution with product catalog, cart management, and Razorpay-integrated checkout supporting **10+** item categories and processing end-to-end transactions in under **2 seconds**.
- Implemented **8+** RESTful API endpoints for authentication, order processing, and payment pipelines, leveraging MongoDB for flexible data management and JWT-based access control.

TermiTalk – Terminal-Based Chat Application | *Python, Socket Programming, Multi-threading, Tkinter, Queues*

- Architected a terminal-based chat application enabling IP-address-based connections with direct messaging and private rooms, supporting **10+** concurrent users.
- Architected a multi-threaded socket infrastructure with a Tkinter-based file sharing interface, admin controls, and reconnection handling, slashing message delivery delays by up to **40%**.

Speaking and Community

4-Day Workshop on React.js and Next.js | *VES Polytechnic, Mumbai*

- Conducted a hands-on session on modern frontend development and scalable web architecture for **60+** students.
- Guided participants through live project implementation covering React fundamentals, routing, state coordination, and deployment.

Publication

QR Attend – Android-Based Attendance Management System | *IJRPR*

- Authored a peer-reviewed research paper on a QR-code-based automated presence-tracking solution with real-time backend validation and Firebase integration.
- Planned and executed a QR authentication workflow for automated check-in tracking, reducing manual effort by **40%**.

Achievements

Invictus '25 | Finalist at VESIT Technical Competition

Need For Code 4.0 '25 | Top 12 Finalist at TSEC

Data Structures and Algorithms | Solved 300+ Problems on LeetCode and GeeksforGeeks
